

120-foot solar-powered container for rural use

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Our off-grid refrigerated containers use solar energy to maintain ideal cooling conditions, ensuring freshness and reducing waste. Equipped with high-performance compressors and evaporators, our ...

Each unit is 100% solar-powered with battery backup, requiring no fuel, generator, or grid connection--ensuring uninterrupted, dependable operation in any environment.

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

This expandable water container lets you dispense water at the campsite. Saves space when not in use by collapsing down to 2-1/4" tall.

Discover how solar containers are revolutionizing rural electrification. Learn how to plan, size, deploy, and operate off-grid solar units effectively--real examples and expert insights included.

Thanks to foldable solar arrays, the container is rapidly deployable -- operating within hours to support power needs across diverse scenarios. Built for longevity, the SolaraBox solar container is built to ...

Folding solar containers replace traditional diesel generators with sustainable green solar energy to reduce diesel use, lower emissions, and allow users to cut energy costs while protecting the ...
