

2025 Microgrid Seminar

SGO produces several conferences each year on topics such as microgrids, grid modernization, smart cities, demand response, IoT, distributed energy resources, and more.

The goal is to foster information exchange and high-quality, one-to-one networking among industry professionals. Topics include grid modernization, microgrids, cyber security, EV charging ...

The one-of-a-kind event will serve as a venue for businesses, communities, institutions and government to learn what's available now - and what lies ahead - to improve their operations with microgrids and ...

As AI data centers, electrification of industrial processes and transportation, and other factors drive a surge in demand for electricity in North America, microgrids and off-grid energy systems are seen as ...

From microgrids to minigrids, from aggregated distributed energy resource (DER) capabilities to virtual power plants, Microgrid Knowledge is on it. Be part of our gathering to connect with the trailblazers ...

Our goal for the Shenzhen-Macao 2025 Symposium on Microgrids is to continue our exchange of results from microgrid research, demonstration, and deployment worldwide with an emphasis on recent ...

The 20th edition of the Microgrid & Off-Grid Innovation Forum, September 30 - October 1, 2025 in Austin, TX brings together technology innovators, project developers, utilities, energy ...

As power supply resilience becomes crucial for critical infrastructure, join industry experts at the Microgrid Knowledge Conference on March 19 to explore how microgrids are revolutionizing energy ...

This workshop will gather leading experts from academia and industry to address the latest innovations and deployment challenges related to microgrids and energy communities.
