

# Add photovoltaic panels to the roof of old houses

Do solar panels work on old roofs?

Ideal for old roofs, allowing roof replacement with an integrated solar system. Saves on tile costs and labour, making installation quicker. Solar panels last as long on old roofs as on new, with warranties typically at least 25 years. The condition of the roof does not impact the operational efficiency of solar panels.

Is it more expensive to install solar panels on an older roof?

"No, it's not more expensive to install solar panels on an older roof. If you opt to replace the roof at the same time, you can install an integrated in-roof system, saving money on tiles and labour. If your roof is structurally weak, you might as well strengthen it, then install solar while you're there.

Can a solar system be installed on an old roof?

You can replace that old roof, and then instead of re-tiling the whole roof then putting a system on top of the tiles, you can install an integrated in-roof system, saving on tile costs, and it would be a quicker installation for the solar, saving on labour." **How Long do Solar Panels Last on an Old Roof?**

How long do solar panels last on a roof?

Solar panels last as long on old roofs as on new, with warranties typically at least 25 years. The condition of the roof does not impact the operational efficiency of solar panels. Beneficial for older properties with poor energy efficiency. Can improve the building's Energy Performance Certificate (EPC) rating and property value.
