Who makes Australian solar panels?

International solar panel manufacturers like Canadian Solar, Longi Solar, JinkoSolar, and Hanwha Q Cells continue to shape Australia's renewable energy landscape. With their strong global reputations and advanced technologies, they provide Australian homeowners and businesses with reliable, efficient, and future-ready solar solutions.

Where are Australian solar modules made?

Australian Solar Manufacturing Pty Ltd is the pioneer company to specialise in the production of high-powered 190-200 watt solar modules in Australia, modules are assembled with imported raw materials such as EVA, TPT, Junction Box, Glass, Silicone, Aluminium frame and solar cell. Components are sourced from Germany, Japan, USA and China.

Are ASM solar panels made in Australia?

Consumer Feedback: While specific reviews are limited, the company is recognized for its pioneering role in Australia's domestic panel assembly and reliable workmanship. ASM provides a made-in-Australia assembly service that supports local industry, though they don't manufacture photovoltaic cells themselves.
