

Croatia's first battery energy storage facility connected to the national transmission grid is taking shape near Šibenik, marking a significant step in modernising the country's energy...

The development will support the installation of up to 60 megawatts of grid-connected battery storage capacity and the deployment of a VPP platform, allowing real-time balancing of ...

MIT Technology Review "s What"s Next series looks across industries, trends, and technologies to give you a first look at the future. You can read the rest of them here. Demand for ...

Phasebit is a premier manufacturer of lithium batteries in Croatia, specializing in in-house production of BMS systems and innovative energy solutions. Our expertise extends to inverters, DC-DC ...

The Zagreb lithium battery energy storage project demonstrates how smart energy solutions can power sustainable industrial growth. As battery costs continue to decline and efficiency improves, now is the ...

Understanding these factors is crucial for anyone looking to engage with the EV battery sector in Croatia, whether for investment, partnership, or operational purposes.

Our global locations and partnerships enable us to deliver energy storage solutions in your part of the world. C& D locations can be found in North America, Asia, Oceania, and Europe. Explore our ...

Advanced technology will position Croatia on the map of European countries investing in battery development, thus making Croatia competitive in the field of development and production of energy ...

Croatia will provide some EUR500 million (US\$534 million) in subsidies for battery energy storage system (BESS) technology, a government minister has said.
