

Bulgaria builds energy storage power station

Stacks are primarily used for home systems but Sigenergy has installed a 10 MW/20 MWh project at a solar site in Malko Tarnovo. Sorting ...

Greek electric power company Public Power Corporation (PPC) said it has begun construction of a 165 MWp solar photovoltaic (PV) plant with a co ...

PPC Group is accelerating its expansion in the Balkans by laying the foundation stone for its Colosseum solar power project in Bulgaria. The facility ...

PPC Group announces expansion into the Bulgarian market by starting construction of a new photovoltaic power plant with battery storage, with a total installed capacity of 165 MWp.

Once completed, the plant is expected to generate over 265 GWh of electricity annually, supplying power to more than 45,000 households and reducing carbon emissions by approximately ...

The dynamic expansion of PPC Group in the Bulgarian Renewable Energy Sources market is marked by the commencement of the construction of a new photovoltaic plant with battery ...

Bulgaria has a unique asset in its energy portfolio being Chaira Pumped Storage Hydropower Plant (" PSHPP "), with a production capacity of 864 megawatts and a pumping capacity of 788 megawatts.

Rezolv Energy has secured a grant from the European Union under the NextGenerationEU programme for the deployment of a Battery Energy Storage System (BESS) at ...

On January 8, 2026, the 500 MWh standalone battery energy storage system (BESS) project located at Maritsa East 3 power plant in Bulgaria was officially put into operation.

Bulgaria wants to become the energy balancer of the Balkans, with new ambitions to build three new pumped-storage hydroelectric power plants ...
