

Byd blade cell sizes

Hi all, I have the following question. I want to combine an existing Net Metering system comprised of: 1. 12 X Sharp 410wp panels in single string 2. Fronius GEN24 Single phase 5.0KW 3. ...

batts: BYD 11.3 HVM Every night when running on batteries when i look back at the graphs and stats i always see a green dot on the battery discharge curve that says "battery mode: ...

Hello, this is my first post on this forum. I'm from Romania, so I apologize for my sometimes bad English. I just purchased a Gen 3 plug in Prius, and thinking about building a battery ...

I am buying three of the BYD 24V battery modules, picking them up next week from batteryhookup store. According to the specs, it works with standard 24V systems (I have a MPP ...

In battery backup mode the inverter can supply power up to its output limit or the output limit of the connected battery, whichever is the lower. At the moment the only officially compatible ...

This would be \$175 per kw delivered, and EVE cells are hovering around \$150-165 per kw. How does shipping look now for 3 packs of 21.198 kWh ? Total below Cost / Price 3 x 16\$1P ...

Hello, I would like to ask if anyone has CAN communication protocols between the SMA inverter and the BYD HVS / HVM battery? Maybe someone can watch the broadcast. I need to ...

I asked BYD and Pylon for the CAN HV protocol data. No positive response. Also i asked Deye about this. My request needs to be approved. (sigh). I've got a general document which i think ...

I have several BYD battery packs. Cell number 8 on one of the packs has always been out of balance. If I disconnect the battery pack, is it safe to charge Cell Number 8 directly from a CV ...

There are of course plug and play options, like the Pylontech H1 or BYD HVL that meet UL9540. In my case, I'm running the Seplos HItens (pair in parallel for 40kwh) just received with are ...
