What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

How to choose an outdoor cabinet?

There are some important criteria to consider when choosing an outdoor cabinet: Material and Durability: The material of the cabinet should be selected according to the conditions of the environment in which it is located. Stainless steel, aluminum or special coatings ensure the longevity of the cabinet.
