

Egypt EK Energy Storage Battery BESS

Will IFC support Egypt's first utility-scale battery energy storage system?

Cairo, Egypt, June 15, 2025 - IFC today announced an investment to support Egypt's first utility-scale battery energy storage system (BESS), deepening its partnership with AMEA Power, a leading renewable energy developer in Africa, the Middle East, and Central Asia, and the Government of Egypt to advance the country's clean energy ambitions.

What does Bess mean for Egypt?

The BESS integration marks Egypt's first project to be implemented under the Government of Egypt's fast-track 4GW Emergency Renewable Energy Program, which aims to meet growing electricity demand through clean and competitive sources and reduce reliance on imported natural gas.

When will Egypt's 'Bess' come online?

The BESS, currently under commissioning, is scheduled to come online by July 2025. It will deliver about 100,000 MWh and reduce nearly 20,000 tons of CO₂ emissions annually, helping Egypt meet its target to cut emissions from its power sector by 37 percent.

The International Finance Corporation (IFC), a member of the World Bank Group, announced a \$72 million investment in Egypt's first utility-scale battery energy storage system ...

The International Finance Corporation (IFC) announced on Sunday a landmark investment to support the development of Egypt's first utility-scale battery energy storage system ...

The 300 MWh battery energy storage system (BESS), at AMEA's 500 MW solar field at Kom Ombo, in Egypt's Aswan governorate, will be integrated with the solar site with the help of a \$72 ...

This is where battery energy storage systems (BESS) emerge as a strategic asset. By stabilizing the grid, smoothing supply-demand imbalances, and enabling higher penetration of ...

Cairo, Egypt - In a historic move for North Africa's energy sector, AMEA Power has successfully commissioned Egypt's first-ever utility-scale Battery Energy Storage System (BESS)--a ...
