

Etower e5000 manual

Are 250kbps compatible with the eTower E5000?

250kbps are not compatible with the eTower. Consider using a Freedom LiTE battery programmed to operate at 250kbps if this BAUD rate must be used. 5 Parallel Configurations It is permissible to connect multiple eTower e5000 modules in parallel. It may however be more cost effective to purchase one Freedom LiTE model of the applicable size than

Can eTower E5000 modules be connected in parallel?

Consider using a Freedom LiTE battery programmed to operate at 250kbps if this BAUD rate must be used. 5 Parallel Configurations It is permissible to connect multiple eTower e5000 modules in parallel. It may however be more cost effective to purchase one Freedom LiTE model of the applicable size than connecting multiple eTower units in parallel.

What is the eTower used for?

The eTower is designed primarily for systems that need to start with 5kWh initially with a view to growing the storage capacity over time in 5kWh increments up to 20kWh. Page 3 Installation Manual Revision 0 8. Lite Industrial This manual covers only the eTower. Please refer to the manuals specific to the other ranges for help with those models.

How do I install the eTower modules?

The eTower modules can be installed into a standard 19" rack. There are three fixing threads on each side of the module near the front, as indicated, that match the 19" rack mount brackets available from Freedom Won on request. The primary installation arrangement is intended to be stacking using the inter-module pedestal, but for applications
