

Fogstar drift reviews

In my Motorhome I have Lead Carbon - estimated Charge Cycles in the thousands - and also Lithium. The Lead rarely gets used so will stay in a good shape for a long time, but ...

The Fogstar Drift ECO is your gateway to reliable, budget-friendly off-grid power. With a superb 305Ah capacity and 3904Wh of usable energy, the Drift ECO is perfect for ...

My new FOGSTAR DRIFT 12v 280Ah Lithium battery arrived quickly. I was pleased to see that it was charged to 50%, the ideal state of charge for storage. I needed the BMS pass code as I ...

Drift PRO Gen2 is the result of that feedback. It's not a full reimagining - it's a refinement. Same form factor, same performance levels, but with smarter internal tech and an ...

Reviewers overwhelmingly had a great experience with this company. ...

Do you agree with Fogstar Drift's 4-star rating? Check out what 2 people have written so far, and share your own experience.

The Drift delivered top-tier hardware at a fraction of the going rate, and it quickly became a bit of an off-grid cult hero. But tech never ...

When I originally spoke to Fogstar they recommended against using the Drift Pro on a yacht as it has a metal case and was not IP rated. I went with the 460Ah Drift which ...

We know choosing the right one can be confusing, so we're here to help. Let's break down the key differences between the Drift ECO, ...
