

How much does a solar battery cost

How much does it cost to install a solar battery?

As of early 2025, the average cost to install a home solar battery in the U.S. ranges between \$9,000 and \$18,000 before incentives. After applying the 30% federal tax credit, most homeowners pay \$6,000 to \$12,000 for a complete setup. For a deeper dive into specific models and performance, explore our Best Solar Battery for Home guide.

Are solar batteries worth it?

The benefits of solar batteries aren't purely financial. Many homeowners value the peace of mind that comes with backup power. Without a battery, grid-tied solar panels automatically shut down during blackouts for safety reasons. This leaves you without power even though you have solar panels on your roof.

Are solar batteries cheap?

Solar batteries aren't cheap, but incentives and smart planning can help lower upfront costs and maximize long-term value. The federal solar tax credit expires Dec. 31, 2025. The federal solar tax credit, officially known as the Residential Clean Energy Credit, is set to expire at the end of the year.
