

# How to choose an solar outdoor power cabinet for camping

Which solar panel is best for camping?

The Jackery SolarSaga 100 continues to be our favorite solar panel for camping. This model was redesigned for 2025, and the newest version is lighter and just as efficient as the previous one. It's easy to use and effective in full and partial sun. It is more affordable than many competing models, and it works better than those models.

What is a portable power station for camping?

A portable power station for camping is a rechargeable battery system that stores energy from wall outlets, car ports, or solar panels. It then lets you use that stored power to run all kinds of gear at your campsite--quietly, cleanly, and without fuel. These units are built for rugged environments.

Can a camping power station work without power?

Phones, tablets, fans, LED lights, drones, and even portable Wi-Fi are now part of many camping setups. But none of that works without power. That's why more campers are packing a camping power station alongside tents and coolers.

How do you connect a portable power station (battery) to a solar panel?

This often means matching your portable power station (battery) to your solar panel brand, or simply using wire snippers, crimpers, and heat shrink tubing. The Anker Solix PS100 (25.9 volts) and BigBlue SolarPowa 100 ETFE (23.8 volts) had the highest voltage when we measured their charge cables in direct sunlight with a voltmeter.

We tested 100+ watt solar panels from Goal Zero, Jackery, Ecoflow, BigBlue, Renogy, and more for RVs, camping, and to charge power stations.
