

# How to connect the GFM-1500F communication base station battery

GFM Series GFM-1500 2V1500Ah GFM series VRLA battery is a robust AGM battery designed for telecom, energy storage and UPS applications. Sacred Sun has got more than 10 years ...

Precise acid vacuum injection method, advanced, environmental formation technology, which effectively guarantee the consistency of the batteries The terminal adopts proprietary ...

To calculate the total height of a battery stack multiply the module height by the number of modules in the stack and add 80mm for the base support except for GFM1500 and 2000 modules ...

GFM-1500 2V1500AH Deep Cycle Battery-communication Base Station& Solar Energy Storage Battery& UPS Backup Power

GFM Series VRLA Battery GFM-1500 Main Applications Backup power for telecom and signal system Backup power for electric system and nuclear plants Storage for solar, wind and hydroelectricity ...

The plate is with the structure of big grid and block, and is made of special alloy through special process of quadric basic lead sulfate, which improves specific energy of the battery and prolongs the cycle ...

With heavy duty grids, thicker plates, special additives and updated AGM Valve Regulated technology, the GFM series battery provides consistent performance and long service life.This series is highly ...

The battery cabinet for base station is a special cabinet to provide uninterrupted power supply for communication base stations and related equipment, which can be placed with various ...

GFM-1500 - BACKUP POWER - Allgrand group,Allgrand Battery--Serve green energy and perfect human life

There are external modules that connect to a power supply, an battery and the load or repeater. These modules will power the repeater off the power supply and also allow the power ...
