

Industrial cabinets for charging stations 600mm deep

Who makes electric vehicle charging stations & cabinets?

*Indicates a required field Dalsin Industries manufactures electric vehicle charging stations and cabinets for the ever-growing electric vehicle market. Call us today to get started on your next project!

What is an electric car charging station?

A charging station is a device that supplies electrical power to plug-in electric vehicles. An electric car charging station has various components, including wires, displays, cords, meters, controllers, and a charging port. These components are also known as electric vehicle supply equipment (EVSE).

Why should you choose Dalsin Industries for your EV charging stations?

As an Original Equipment Manufacturer (OEM), you're undoubtedly seeking reliable partners to enhance the safety and durability of your EV charging stations. The good news is that you've just found the perfect partner. Dalsin Industries helps meet demand with functional and protective custom cabinets for charging equipment.

What are the components of an electric car charging station?

An electric car charging station has various components, including wires, displays, cords, meters, controllers, and a charging port. These components are also known as electric vehicle supply equipment (EVSE). However, these components are vulnerable to moisture, extreme temperatures, ultraviolet light, dust, debris, and impact forces.
