

Instabreeze i 2000 type windsafe

What is ista Breeze windsafe 2000?

Original wind generator iSTA Breeze Wind Protection We are pleased to introduce our new wind generator Istabreeze; WindSafe 2000. The newly developed Istabreeze; WindSafe is a wind generator for long-term professional use, providing reliable automatic and unattended energy even in difficult conditions.

Which I-2000 wind generator should I buy?

Our i-2000 wind generator is the solution for all environmentally conscious switchers who want to buy a wind turbine for a long time. In contrast to our i-1000 models, with the Istabreeze i-2000 it is possible to gain an output of 2000 watts. For users who want more power, the i-2000 is a good choice.

Why should you choose I-2000 wind turbines?

Thanks to continuous optimization, our i-2000 wind turbine is perfectly designed for generating wind energy. Stormy nights or the fresh summer breeze can be converted into usable energy in no time at all with our wind turbines.

How does istabreeze; wind turbine protection work?

WindSafe Our Istabreeze; wind turbine model features a revolutionary turbine protection system, the rotor is supported on a movable platform that raises the entire structure by 90 degrees in wind gusts or strong winds, changes the blades to the wind, reducing frontal oscillations and rotation. This protects the turbine from strong winds.
