

Modular Battery Cabinet 5MWEPC EPC Project

We are integrators of Tier 1 battery energy storage systems. We offer fully integrated systems with in-house energy management systems (EMS) and advanced microgrid controllers.

EPC's inverters are designed for the energy storage and PV market and include advanced functionality as standard, that enable participation in grid ancillary services like frequency regulation, voltage ...

The fire protection system can penetrate into each battery module to ensure the safety of the entire cabinet and minimize the damage in case of fire. Product features(Containerized Energy Storage ...

We provide flexible solutions via modular building blocks using either containerized or building type solutions, which incorporate all the necessary cooling, controls and safety features.

Our new 5 MW / 10 MWh Battery Energy Storage System is now live, engineered from the ground up in Lisburn. Our modular, off-site construction ensures a faster and smoother path to commissioning.

EVE Energy made a notable appearance at RE+ 2025, held from September 9-11 in Las Vegas, where it introduced two major energy storage innovations. The company globally launched its ...

Advantages Available and guaranteed deliverable to keep your project on schedule Proven Lithium-ion chemistry provide long life in high cycle applications up to 365 cycles per year

Designed to meet the rigorous demands of solar power projects, these modular solutions offer unmatched reliability, scalability, and climate adaptability--ideal for utilities, industries, and remote ...

We can offer flexible deployment of multiple battery containers supporting both back-to-back and end-to-end installations. The battery container is compatible with the leading global inverter manufacturers ...

This system enables 24/7 remote control and monitoring, and is designed to efficiently manage and optimize multi-MW and even GW projects, given a stable internet connection.
