

Octopus energy battery storage tariff

Does octopus have a solar and battery storage tariff?

Octopus has a dedicated solar and battery storage tariff. Octopus Energy offers two tariffs exclusively to customers with both solar panels and battery storage. They are Octopus Flux and Octopus Intelligent Flux. The intelligent version was launched in July 2023 and takes into account the growing interest in battery storage.

Can octopus charge a battery without solar PV panels?

If you do have a battery without solar PV panels, Octopus has a couple of suitable tariffs. The Agile Octopus import tariff allows customers to take advantage of fluctuating wholesale energy prices. By charging your battery when prices are low and using the stored energy during peak hours, you can reduce your energy bills.

Does Octopus offer battery storage?

Octopus Electric Vehicles - offering EV leasing deals, home charging solutions and smart green tariffs. Recognising the crucial role of battery storage in the transition to a greener energy system, Octopus Energy have made the decision to offer battery storage solutions to its customers. It's a great move in our opinion.

Does Octopus Energy charge a flat rate?

While most standard plans charge a flat rate, Octopus Energy's smart tariffs use time-of-use pricing to reward off-peak consumption and peak exports, perfect for households with solar panels, home batteries, EVs or even heat pumps.
