What are the best Inverter generators?

For power outages, camping, and off-the-grid living, we tested the best inverter generators including portable picks from Honda, Champion, Generac, and more.

What is the best inverter generator for an RV or cabin?

If you're looking for an inverter generator for your RV or cabin, this unit from Champion can get the job done. It has the power you need to run all of your electrical equipment, and has a strong reputation for quality that helped get it on this list. It produces 7,500 running watts for up to eight hours on 50% load with a full tank of gas.

Do you need an inverter generator?

An inverter generator is something that everyone should have, whether you are an avid outdoor enthusiast, or someone looking for a backup power supply for those times when the lights go out. Do your research and get the optimal size for your needs and keep the unit maintained regularly so it will be ready when you need it.

How often should a portable inverter generator be used?

Portable inverter generators and even home backup generators are made to be used sparingly, so they will need a rest at some point. Most agree that giving the motor time to cool down and recover at least once every day is good. This gives you time to check the oil and connections, too. Continuous use for days on end is never recommended.
