

Photovoltaic Panel Customer Notice

Can I customize a sign & label for my photovoltaic system?

No problem. We're happy to customize signs and labels to fit your specific needs. Call us at 1-886-777-1360! Stay compliant and safe, labeling photovoltaic system components, with this guide.

Do solar panels need to be labeled?

Solar panels, like most giant electrical systems, require proper labeling and signage to warn workers of the potential of arc flashes and short circuiting. Solar system signs not only encourage workers to stay safe and caution them of hazards, but also provide additional information such as voltage amount and disconnect location.

How do I notify JA Solar if a claim is covered?

If the Customer has a justified claim covered by this Warranty, an immediate written notification shall be directly made to JA Solar by means of registered letter to the address of JA Solar listed hereunder, or, sending a notification via e-mail to the e-mail account of JA Solar listed hereunder.

What is a PV system inspection?

Verify correct installation of all components of the PV system. These tests on completion generally consist of a visual inspection to identify defects, unfinished work and non-compliance with contractual and planning requirements; functional tests of all key components required for the system to generate and supply electricity to the grid; a
