

# Photovoltaic energy storage stocks rise

Are solar stocks gaining a boost from artificial intelligence?

Solar stocks continue their early-year rally Tuesday, as companies finally appear to be gaining a boost from the power-hungry artificial intelligence boom, after the group was bypassed last year even as stocks in other energy sectors surged.

Will Enphase & SolarEdge lead a recovery?

Enphase (ENPH), SolarEdge (SEDG) and Sunnova Energy (NOVA) also likely will "lead a recovery in sales and profitability, bolstered by strong trade protections, improving economics and state-level support," Barnett wrote. Solar stocks rally as companies capitalize on AI boom. Enphase, SolarEdge, First Solar among top performers.

Is Panasonic a good stock to buy?

Panasonic trades "over the counter" and not on a major exchange, however, so investors should balance this company's scale and dominance with its admittedly illiquid U.S. stock listing. With more than \$5 billion generated in fiscal 2024 by its battery-focused energy division, however, Panasonic stands among the iconic names in energy storage.

Is Bloom Energy a good energy storage stock?

Bloom Energy is one of the smaller picks on this list, but it may be the most dynamic energy storage stock out there. It specializes in advanced fuel cell energy platforms, which use a proprietary solid oxide technology to convert natural gas, biogas or hydrogen into electricity with low or even zero carbon emissions.
