

Portable power outlet specifications

What is a portable power outlet?

Portable Power offers a solution for both children and workers. Equipped with a Portable Power Outlet, work can be fluid. Students or employees can set up their personal electronic devices from anywhere in a room. This permits social distancing and helps stop the spread of Covid-19.

What is an AC portable power station?

The AC portable power station is a versatile, convenient, 88.8Wh large capacity portable power station with AC outlet which combines 110V AC inverter, DC 12V and 2x USB ports, designed to run lights, phones, laptops and small appliances in an off-grid or power outage situation. Great for emergency, camping, home use, trip, travel, summer holiday.

How much power does a portable power station need?

Small devices like a laptop and coolers tends to need around 60 to 100W of continuous power whereas appliances like fridges can need up to around 800W. So, a large portable power station with a higher output is best for powering large devices, or more devices at once.

What is a portable power outlet 27k?

The Portable Power Outlet 27K 4.0 is incredibly unique because it fits so many outlets into a small, sleek design. It supplies 27,000 mAh of electric power through a multitude of ports. The 27K has both a 100 Watt AC outlet and a 60 Watt USB-C port. It also comes with two 2.4 Amp USB ports.
