

# Small outdoor cabinets using Irish IP54 for shopping malls

What is an IP54 cabinet?

Prism's IP cabinet range provides ingress protection to an IP54 rating and can be deployed in areas with high dust and moisture content. All Prism IP54 enclosures are sealed or welded in construction and fitted internally with compression gaskets, providing secure apertures and...

Is IP54 suitable for outdoor applications?

IP54, just like our other IP enclosures, is suitable for outdoor applications because it is protected against low-pressure water sprays from any direction. However, keep in mind that these enclosures are not entirely dust-tight and waterproof, so very dusty or underwater environments may be too harsh for them.

Why are IP54 enclosures used as traffic control cabinets?

IP54 enclosures are commonly used as traffic control cabinets among other applications because of its superior ability to protect the electrical equipment from splashing water or rain conditions from any directions as well as protection from tampering from any solid object aside from a non-harmful deposit of dust.

What is a stainless steel IP54 enclosure?
