

FTMRS SOLAR specializes in photovoltaic power generation, solar energy systems, lithium battery storage, photovoltaic containers, BESS systems, commercial storage, industrial storage, PV ...

The company specializes in solar power production and offers battery storage systems, enabling customers to harness solar energy on-site and reduce electricity costs.

The project involves the construction of a sophisticated 60 MW battery energy storage system (BESS) combined with a virtual power plant (VPP) in Žibenik.

The development will support the installation of up to 60 megawatts of grid-connected battery storage capacity and the deployment of a VPP platform, allowing real-time balancing of ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal operating ...

We are offering battery solutions in Croatia, Slovenia, Serbia, Bosnia and Herzegovina, North Macedonia, Kosovo, Bulgaria, Albania and Greece. Together with ABC Compressors we are able to ...

Croatia's distribution system operator, HEP ODS, now considers the regulatory framework for battery storage sufficiently robust. Three connection models are available, though key ...

Following the 2020 commissioning of Vis SPP, we developed, manufactured and installed a 1 MW battery storage system that can store 1.44 MW of electricity. In September 2020, KON?AR ...

Croatia's first battery energy storage facility connected to the national transmission grid is taking shape near Žibenik, marking a significant step in modernising the country's energy...

As Germany's data centers consume 4.3TWh annually - equivalent to powering 1.2 million homes - SMA Solar's solid-state energy storage systems (ESS) emerge as game-changers.

Solar container battery storage factory in Croatia
