

Solar light 6 meters 40 watts

Powered by Osram SMD3030 LEDs, it delivers superior brightness while consuming less power, allowing it to maintain full luminosity far longer than competing solar street lights that rely on inferior ...

Our CASTER Series Solar Area Light series features an ...

Our CASTER Series Solar Area Light series features an integrated solar panel, battery and Light fixture with easy to install mounting eliminates trenching to bury electrical wires and the savings continues ...

Our EVO line offers an all-in-one solar street light system with easy installation and operation. It includes a versatile bracket that fits any square or round pole.

The 40 Watt LED Ultra High Powered Solar Streetlight is designed and built for general commercial, industrial and residential projects. The light is completely powered by zero-carbon emission source - ...

Use the full-function remote control to adjust lighting mode (Sensor or Constant), brightness, runtime, and color temperature (CCT) from a distance of up to 6 meters (20 ft.).

This patented, solar-powered, integrated lighting system comes prewired. All that is required is mounting it on a pole or building and aiming the solar panels toward the sun.

The Solar Street Light for 6 Meter Pole is not just a light pole; it is a smart and sustainable, and futuristic solution. It is ideal in contemporary outdoor projects due to features such as automatic operation, ...

The 40w solar street lamp can be quickly mounted on a pole, it does not require additional hard-wire links. Solar power can be illuminated all year round, no wiring, no AC or DC power.

The brightness of a 6 meter high solar light generally ranges from 500 to over 3000 lumens, contingent upon several variables, including wattage and the type of LED used.

IP67 waterproof protection, Alloy aluminum and ABS materials provide better airtightness and explosion-proof performance. This allows the solar light to work well in rainy or other bad weather.
