

steep, abrupt, precipitous, sheer mean having an incline approaching the perpendicular. steep implies such sharpness of pitch that ascent or descent is very difficult.

To undergo a soaking in liquid: Let the tea steep for five minutes. n. 1. a. The act or process of steeping.

1.3 Installation considerations are divided into two distinct aspects: the interface between the photovoltaic module and the array mounting structure, and the interface between the array mounting ...

Learn how to identify sloped areas unsuitable for solar farms using Atlas's Aspect-Slope Suitability Analysis. Set slope thresholds by direction, find usable land, and plan more efficient solar projects -- all in your browser.

The success of a PV installation relies on solar panel mounting systems. Here we discuss the four-step approach to selecting the right mounting structure for your PV project. ...

Optimization of the inclination, orientation and location of photovoltaic solar panels and solar collectors in a solar installation to maximize the use of renewable energy.

Installing a mountain photovoltaic (PV) mounting system on steep slopes or uneven terrain presents a unique set of engineering and logistical challenges. The variable soil composition, unpredictable ...

STEEP definition: having an almost vertical slope or pitch, or a relatively high gradient, as a hill, an ascent, stairs, etc. See examples of steep used in a sentence.

Steep slope - Spread of Flame A total of eight spread of flame experiments were conducted with a PV mounted on a steep slope roof: two experiments with the PV module installed at a height ...

Earth disturbance activities necessary to construct solar panel farms will vary depending on the topography, slopes, soils of the proposed location of the solar panel farm, the layout of the solar arrays, and whether the ...

The slope presents unique challenges, including potential installation difficulties and varying levels of sunlight exposure. Proper planning and execution can help harness solar energy ...

steep adjective [-er/-est only] (TOO HIGH) (esp. of prices) too high; more than is reasonable:

Steep definition: Having a sharp inclination; precipitous.

Of a slope; set at a high angle "; "; a steep roof sheds snow "; (of a cost) unreasonably high or excessive ";The restaurant charged steep prices for basic dishes ";"; - exorbitant, extortionate, ...

If not properly designed and installed, the addition of PV panels can adversely affect roofing performance. This bulletin outlines relevant codes and standards and provides best practices for installing PV panels on steep ...

noun A steep or precipitous place; an abrupt ascent or descent; a precipice. noun The process of steeping; the state of being steeped, soaked, or permeated: used chiefly in the phrase in steep.

Learn how to effectively install solar panels on a sloped roof with our detailed guide. Discover the benefits, step-by-step installation process, safety tips, and maintenance advice to maximize energy ...

to soak in water or other liquid, as to soften, cleanse, or extract some constituent: to steep tea in boiling-hot water; to steep reeds for basket weaving. to wet thoroughly in or with a liquid;
