

Us based lithium mining companies

Are there any junior lithium miners in the US?

USA has limited quality junior options, especially when considering the lower grades in the Clayton Valley and nearby projects. Canada has a few advanced lithium juniors with good spodumene resources. My top 5 picks for North American lithium miners are all juniors with a good chance to be producers before 2025, and some in 2023/24.

Is there a lithium mine in North America?

North America currently only has the small Silver Peak Mine run by Albemarle (ALB) in Nevada, USA and no other significant lithium production; however, this looks set to change dramatically in the next 5 years as demand for lithium from U.S. battery gigafactories is likely to surge.

Who owns the largest lithium resource in North America?
