Will China's space-based solar projects generate a revenue boost?

Even if Chinese suppliers do, in the slight chance, secure contracts linked to SpaceX, they are unlikely to generate a meaningful revenue boost, Wang said, noting that space-based solar remains economically marginal.

How has China impacted the solar industry?

China dominates global solar manufacturing, but large state-funded investment has fueled a supply glut, pushing module prices sharply lower and accelerating consolidation across the sector. The solar sector has been grappling with a prolonged price slump and oversupply, squeezing margins even as leading producers continue to add capacity.
