

# What are the requirements for unpacking photovoltaic panels

How to pack solar PV modules?

Inside the box each module is placed vertically. Put the module into the carton from one side with protector on four corners. Citizen Solar recommends that two people should load into and remove the modules from the pack carton for solar PV modules.

How to unpack PV modules?

Unpacking of PV modules should always be done in the vertical manner by two persons as shown in the diagram. Also care should be taken for falling over one module to the other inside the packing box. Modules should be stored in a dry and ventilated environment to avoid direct sunlight and moisture.

Can solar PV modules be installed in sunlight?

Use of insulated tools and gloves is recommended while working with modules in sunlight. No metallic contacts should be on the human body. The installation of solar PV modules should only be performed by a qualified licensed professional, including, without limitation, licensed contractors and licensed electricians.

Can you walk on a LONGi Solar PV module?

DO NOT stand or walk on PV modules. Prior to beginning installation, review the Installation Manual for LONGi Solar PV Modules. Do not carry a module alone; always use two people to lift and carry. Do not drill holes in the frame of the module.

This guide serves as a reference for inspecting, transporting, unpacking, handling and storing LONGi PV solar modules to ensure safe practices for you and the modules.

This manual is for Jinko solar PV module storage and unpacking instructions. To ensure the safety of loading, unloading, unpacking and storage of PV modules, please read this manual ...

Let's face it - unboxing solar panels isn't as thrilling as opening the latest iPhone, but mess it up and you'll be crying harder than a toddler denied candy. Proper photovoltaic panel unpacking ...

Implementing solar photovoltaic panels post-unpacking demands a meticulous approach, ensuring intricate details are attended to in order to achieve utmost efficiency and safety.

3.5 Instruction for unpacking, handling and sampling at project site When the modules are transported at the project site, the transportation route shall be selected on a smooth road to avoid ...

02. DISCLAIMER OF LIABILITY Since On-Site compliance to the recommendations contained in this Handling, Storage, Installation, Operation and Maintenance Manual, and the ...

Unpacking of PV modules should always be done in the vertical manner by two persons as shown in the diagram. Also care should be taken for falling over one module to the other inside ...

# What are the requirements for unpacking photovoltaic panels

**Unloading Instruction** This manual is for DMEGC solar PV module unloading instructions. To ensure the safety of unloading of PV modules, please read this manual carefully.

**Safety note** Please read the following safety instructions carefully before unloading and unpacking your solar modules. It is crucial to follow the outlined measures and guidelines for the safe ...

Admittedly, module unpacking, handling and storing are not the most top-of-mind topics--most of the industry attention goes to the installation process and related best practices--but ...
