

What to do if the photovoltaic panel reminds you to clean it

Should you clean your solar panels regularly?

The experts at Solar Panel Cleaning Ltd explain that if you don't regularly clean your solar panels dust can accumulate and even just one dusty cell can affect the performance of the entire panel.

Do solar PV panels need to be cleaned?

That said, most solar pv panels in the UK will not need any heavy-duty cleaning because regular rain will wash most dirt and grime off the surface, dispelling one of the myths about solar being its difficulty to clean.

How to clean solar panels?

Cleaning solar panels can be done independently, but with proper precautions: 1. Use only pure water
Recommended water type: Prefer demineralized or distilled water. Why avoid other types: Tap water contains mineral salts that can leave streaks or limescale deposits, compromising glass transparency and thus solar absorption.

How do I choose the best cleaning schedule for my solar panels?

To determine the best cleaning schedule for your solar panels, consider these key factors: Your Personal Safety: Always prioritize safety when cleaning your solar panels. Avoid cleaning them during adverse weather conditions such as strong winds, heavy rain, or thunderstorms, as this can pose serious risks.
